

## You Can Make a Difference DPSS Move Narration

*The professionals at Riverside County DPSS Children's Services find plenty of career opportunities that offer satisfying work and great opportunities for career advancement, including supervision for licensure.*

We have what's called the licensing program, whereby our department provides a licensed therapist, or a licensed social worker, who you can meet with once a week in order to gain hours toward professional licensure. They not only prefer to have folks that are working toward a degree, or have a degree, but they also want folks to feel fulfilled, and to reach, I guess, the apex in the sense that they want folks to be licensed if in fact that's what they are, they're shooting for.

Most of us want to go on and get our LCSW, which is the Licensed Clinical Social Worker, so that we can, you know, do many, many other things we maintain in the county and go on, you know, can do private practice, you can, there's just so much you can do with it, and Riverside County is very supportive of that.

*It's a great place to work and be a part of the team. We work hard to find the right fit for you.*

*With offices throughout the region, there's a location and a job that's right for you. Riverside County DPSS Children's Services is a place where you can make a difference.*

What you'll find here is that there's a degree of camaraderie or connectedness among the workers unlike anyplace I've ever worked before.

You get to meet personal, personally meet other professionals in that in other agencies and that is just a good feeling in terms of community involvement and good people to work for and work with.

I would encourage anyone who has their bachelor's degree or who is just coming out of school to consider public child welfare.

I believe that we all got into this field for the same reason, which is to genuinely help people.

I think social work allows you the opportunity not only to help people but help people directly.

Our bottom line for outcomes for children and families is that we have children who are in safe and stable homes.

If we can strengthen our society from the family unit all the way out, that we've really done something and really assisted our society in making a change for the better.

Everyone wants to be part of a winning team and Riverside County DPSS is a winning team.
